

### Working method for marble natural stone and marble composite tiles

Use the upgrade pad #1 for (deep) cleaning. The result is a clean and open floor surface. Then use the upgrade pad #2 for closing the floor surface with light cleaning. The cleaning pad makes the floor shine and close for 100%. The cleaning pad is also the pad to use for maintaining a marble floor.

### Working method for marmoleum (lino)

For stripping, use the strip pad #0. A protective layer can be applied immediately after stripping. For cleaning, keeping the floor closed, maintenance and maintaining the gloss of floors with a protective coating, use the cleaning pad daily or weekly with a single-disc machine or scrubber. The cleaning pad can also be used dry with a high-speed or ultra high-speed machine. The result is a shiny but slip-resistant floor.
