Simply efficient remotely
KEMARO 900

K900 Remote

Pallet splinters, packaging residues or industrial dust?

The K900 Remote is the world's first industrial sweeper with integrated dust extraction for large areas and coarse dirt that you can control with a remote control. The sweeper cleans the areas efficiently around the clock and thanks to its low design, it also cleans optimally under machines and equipment.

The K900 Remote can be easily transported and used in several buildings or rooms.

Cleans even coarse dirt

Cleaning in pallet warehouse

Remote control, practically packed in a box

Scope of delivery

Flat rate for: Two service per year incl. driving and labour costs
incl. wearing parts (max. 3 filters, 1 brush set) excl. spare
parts

Wearing parts packages

072.200 Wearing parts package (2 disc brushes, 1 sweeping roller, 2
filters, small parts)

072.201 Wearing parts package small (lips, seals)

Technical data

Working width 90 cm
Running time max. up to 5 h
Battery Lithium- Ion / 36 V
Charging time 2.5 h
Cleaning speed 0.7 m/s
Ramp slope max. 12%
Cleaning capacity 1'000 m²/h
Dirt tank capacity 35 l
Weight incl. batteries 32 kg
Dimensions L / W / H 79 x 72 x 30 cm

Consumable material

072.103 Remote control
072.202 Filter
072.203 Brush roller
072.204 Disc brushes (2 pieces)
072.209 Lithium-ion battery
072.210 Charger
