

Ready for the Champions League!

Get a playmaker for your sports hall.

The robot RA660 Navi cleans your sports hall twice a day:
hygienically clean - extremely reliable - inexpensive
Everything about the new team player at www.ra660navi.com

RA 660 Navi

Keeping sports halls hygienically clean is a must - a duty in Corona times!

It is recommended to clean halls twice a day. This task, and therefore responsibility towards the users, can be easily accomplished with the robot RA660 Navi - at a reasonable price! The qualified caretaker staff has more time to meet the other massively increased hygiene requirements.

For example, you program your robot RA660 Navi over lunchtime for the first cleaning, **an area of 1481.99 m² is cleaned in 1:10 h**, and for the second cleaning at night at 00:30 h.

Quality Control

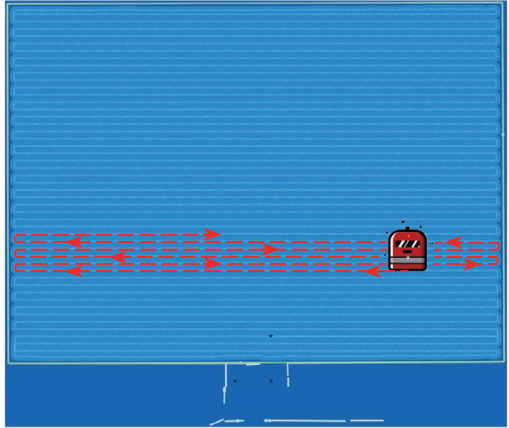

Thanks to the Cleanfix reporting you have full control over the cleaning activity!

This cleaning report shows a sports hall with 1481.99 m² cleaned in one hour and ten minutes (1:10:21).

The cleaning paths (marked red) of the robot are clearly visible. You have full control that the entire hall is cleaned. No source of error from unnecessarily double cleaned areas or from forgotten areas.

The cleaning details show among other things the battery level, the exact running time and the exact cleaning time.
